BEAUTY, IN YOUR OWN WAY.

Your individuality, expressed through your eyes.

From subtle nuances to a striking gaze.

Choosing the right materials. Refining your technique.
RAFI values every single detail.

RAFI

FLAT LASH

EYELASH EXTENSION

LONG SELLER ITEM

Lightweight yet resistant to drooping. For naturally elegant eyes.

FEATURES OF RAFI LASH EXTENSIONS

POINT 1

Confidently long-lasting curls
Eligible for a refund if the curl loses its shape

POINT 2

Original RAFI colors and textures
Elegant matte-finish extensions
Blend easily with natural lashes

POINT 3

Designed to minimize stress around the eyes
Feather-soft and lightweight
Created for exceptional wearing comfort

AN UNCOMPROMISING FOCUS ON RETENTION
Developed with feedback from lash artists
Pursuing beautiful curls that are lightweight yet resist drooping
[Lightweight Extensions That Hold Their Curl]

RAFI continues to pursue the ultimate in lightness and curl retention.

Using the shape-memory properties of PBT (polybutylene terephthalate), we focused on lasting curl and a natural texture. They are manufactured so that the color extends beautifully to the tips.

RAFI Original Flat Lashes,
renowned for excellent retention

Lightweight, soft matte texture

Reduced shine for a naturally fuller, darker finish.

Shape-memory material retains the curl,

while the elliptical profile fits the natural lash

to improve retention.

Setting a new standard for quality,

skilled artisans divide the work across multiple production stages,

finishing each lash with meticulous care.

IDEAL FOR CLIENTS WHO...

- ☑ Want secure application and lasting retention
- ☑ Are concerned about curls losing their shape
- ☑ Are concerned about stress on their natural lashes
- ☑ Want to minimize shine and gloss

FLAT LASH

FLAT LASH POINT

point 1

Continuously Evolving Retention

Our original flat lashes continue to evolve in pursuit of curls that never lose their shape. Also recommended for clients concerned about curl mismatches during refills.

point 2

Client-Focused Lightness and Comfort

Soft fibers developed for exceptional lightness, with a soft, airy matte texture. Flat lashes that combine a natural finish with comfortable wear.

point 3

Easy to Refill

Also recommended for clients who struggle with curl mismatches during refills because their extensions have lost their curl.

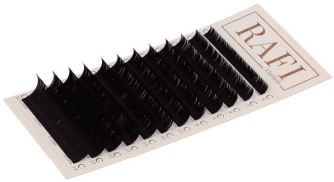
FLAT LASH COLOR SERIES/SIZE



Black Flat Lash

□ 0.10 0.15 0.20 □

Curls that never lose their shape!! Characterized by a deep black color and a matte finish. The fibers blend well with adhesive, so simply switching extensions can improve retention.

Dark Brown / Light Brown

□ 0.15 0.20 □

A rich dark brown that provides clear definition without looking as bold as black, and a sheer, ash-toned light brown. Available individually as well as in an alternating mix.

Red Brown

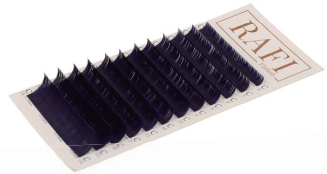
□ 0.15 0.20 □

The color extends to the tips for vivid color even when used alone. Irresistibly charming once applied, and equally beautiful when mixed.

Lavender Pink

□ 0.15 □

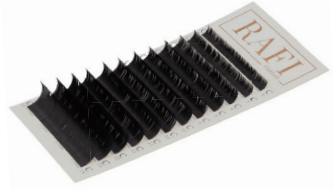
This brown-toned pink blends beautifully with the skin, creating a truly unique shade. It is especially charming when mixed in as an accent color.



Deep Blue

□ 0.15 □

The color extends to the tips for vivid color even when used alone. This deep blue looks black in low light and blue in bright light.



Gray Black

□ 0.15 □

A near-black gray recommended for clients who find black too intense but do not want dark brown. RAFI's new shade also pairs exceptionally well with other colors.

VOLUME LASH

Light Volume, Soft Definition.

R AF I

RAFI Extension Features

The extension adhesive strip features 2 colors: yellow and brown. Peel the extensions up to the brown line to help them spread easily and freely adjust the fan width.

Available in a wide range of lengths for looks from natural to glamorous. These volume lashes expand your finishing options and are easy to use for both salon work and competitions.

FINISH QUALITY

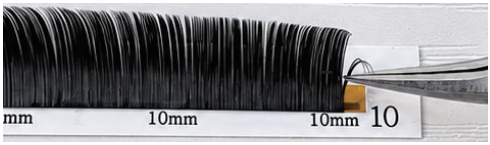
3 Qualities for a Refined Finish

01 MATTE BLACK
Elegant depth with a low-shine finish

02 0.07 mm LIGHT
Light, airy volume with soft density

03 CURL KEEP
Beautifully maintains a well-defined curl

Curls	JJ	J	C	D	LJ	LC	LD	LD+
Example: 10 mm								



Peel the extensions up to the brown line

Easy Fan Creation

The adhesive strip is divided into 2 colors. Simply peel the extensions up to the brown line to spread them easily to your preferred width.

Move the extension bases from side to side to open the fan

Easy Root Movement

The extension bases move easily from side to side, allowing precise adjustment of the fan width.

Pull away following the curl

Easy Pickup

Each extension has enough body to be pulled away easily along the curl, enabling smooth pickup.

Move from side to side to widen the fan

Works with Any Technique

Designed for easy use with your preferred technique, including ring, back-of-hand, and tabletop methods.

GLUE

Fée do Glue
Fée do Glue

5 ml ¥2,900 (excl. tax)

A popular, fast-drying, low-viscosity glue with excellent retention and low irritation.

Main ingredients
Ethyl cyanoacrylate
Alkoxy-2-cyanoacrylate
Poly(alkyl methacrylate)
Pigment
Curing time 1-2 sec.
Optimal humidity 40-60%
Application temperature 22-28°C
Shelf life 3 months unopened / 1 month after opening
Country of manufacture South Korea

Custom Glue
Custom Glue

5 ml ¥3,100 (excl. tax)

A versatile, viscous glue that grips instantly and can be blended for use.

Main ingredients
Ethyl cyanoacrylate
Alkoxy-2-cyanoacrylate
Poly(alkyl methacrylate)
Pigment
Curing time 1-2 sec.
Optimal humidity 40-60%
Application temperature 22-28°C
Shelf life 3 months unopened / 1 month after opening
Country of manufacture South Korea

Ange do Glue
Ange do Glue

5 ml ¥2,900 (excl. tax)

A fast-drying glue formulated with sensitivity in mind.

Main ingredients
Ethyl cyanoacrylate
Polyisocyanate
Poly(alkyl methacrylate)
Pigment, N-methylpyrrolidone
Curing time 1-2 sec.
Optimal humidity 40-60%
Application temperature 22-28°C
Shelf life 3 months unopened / 1 month after opening
Country of manufacture South Korea

While squeezing the bottle, wipe away excess glue thoroughly with a low-lint paper napkin, then close the cap.
* High-lint materials such as cotton may react with the liquid and generate heat, potentially causing burns.

All 6 Glues: Low-Odor Formula

Application Environment and Storage Instructions

3 Standard Glues

Room temperature 22-28°C / Humidity 40-60%

3 LED Glues (Ss / Ts / Tt)

Room temperature 22-26°C /
Humidity 45-60%
Compatible wavelength 395-420 nm

* These are the environmental conditions for application, not storage temperatures.

Manufacturing Date
Printed on the bottle base

* The manufacturing date for LED glue is printed on the pouch.

LED GLUE Made in Japan

Ss / Ts / Tt

LED Black Ss Glue

5 ml ¥4,900 (excl. tax)

A fluid, low-viscosity formula. Easy to spread even in small amounts, supporting precise application.

Main ingredients
Cyanoacrylate
Acrylic resin
Photoinitiator, carbon
Viscosity 150 mPa·s
Curing time 1-2 sec.
Optimal humidity 45-60%
Application temperature 22-26°C
Wavelength 395-420 nm
Shelf life 3 months unopened / 1 month after opening
Country of manufacture Japan

LED Black Ts Glue

5 ml ¥4,900 (excl. tax)

Moderate viscosity for easy positioning. Fully cures under LED light in 1-2 seconds.

Main ingredients
Cyanoacrylate
Acrylic resin
Photoinitiator, carbon
Viscosity 300 mPa·s
Curing time 1-2 sec.
Optimal humidity 45-60%
Application temperature 22-26°C
Wavelength 395-420 nm
Shelf life 3 months unopened / 1 month after opening
Country of manufacture Japan

LED Black Tt Glue

5 ml ¥4,900 (excl. tax)

Cures in 1 second under LED light. A rich, high-viscosity formula.
Main ingredients
Cyanoacrylate
Acrylic resin
Photoinitiator, carbon
Viscosity 500 mPa·s
Curing time 1 sec.
Optimal humidity 45-60%
Application temperature 22-26°C
Wavelength 395-420 nm
Shelf life 3 months unopened / 1 month after opening
Country of manufacture Japan

Features Common to All LED Glues

Fast. Beautiful. Comfortable.

Smooth curing in 1-2 seconds

- Easy-to-use LED glue made in Japan
- Low-odor formula for enhanced comfort
- Gentle application with reduced irritation
- A beautiful finish with lasting retention

Low-odor glue.

Storage Instructions

3 Standard Glues

Store in a dark place at 18-23°C. An insulated flask with desiccant is recommended. Refrigeration is not required.

3 LED Glues (Ss / Ts / Tt)

Refrigerate in the aluminum pouch with desiccant. After removing from the refrigerator, leave at room temperature for at least 30 minutes and use only after it has returned to room temperature.

Shelf life: 3 months unopened / 1 month after opening
Use within 1 month after opening.

General Precautions

Use in a well-ventilated location away from direct sunlight.
Curing will be slower at lower temperatures.
Store away from direct sunlight and high humidity.
Use the original pouch for storage. Its interior is aluminum, and it contains desiccant.
When storing in a 2-layer insulated flask, add desiccant.
Close the cap securely.
Keep out of reach of children.
Write the date opened on the bottle.

From Removal to a Beautiful Finish
REMOVER

Choose between 2 gel removers based on handling.

Smooth Remover

SMOOTH REMOVER

15 ml ¥1,800 (excl. tax)

As little as 1 minute. Stays precisely where applied.

A firm, high-viscosity blue gel that holds its shape. Designed to resist dripping and allow precise application to the bonded area. Suitable for everything from partial to full removal. Recommended when precise control over placement is required.

* Store horizontally on its side.

Speed Remover

SPEED REMOVER

15 ml ¥2,000 (excl. tax)

As little as 30 seconds. Fast dissolution.

The smooth-spreading green gel stays on the targeted bond and dissolves the adhesive. Suitable for both partial and full removal, including LED extensions. Recommended for salons seeking shorter removal times and a faster treatment workflow.

* Store upright.

The 2 formulas are LED compatible and suitable for single, flat, and volume extensions.
Shelf life: 3 years unopened / 1 year after opening
Main ingredient: γ-butyrolactone

One Step to Better Adhesion
PRIMBOOS

Primer and booster: 2 functions in 1 bottle.

Primboos

PRIMER + BOOSTER

30 ml ¥2,200 (excl. tax)

Supports a beautiful finish
from the foundation up.

A 1-bottle formula that removes oil and debris, preparing the lashes for better glue compatibility. Formulated with silk to help protect natural lashes while supporting extension adhesion and retention. Easy to incorporate into daily pretreatment routines.

A basic 30 ml format.
How to choose | The standard choice
for daily pretreatment

Primboos Fit

PRIMER + BOOSTER

20 ml ¥2,200 (excl. tax)

A closer fit with low-molecular-weight silk.

An improved version of the original Primboos, formulated with low-molecular-weight hydrolyzed silk. Enhances compatibility between natural lashes and extensions for an even closer fit during application. Recommended for professionals who want secure adhesion in addition to pretreatment benefits.
How to choose | For an even closer fit

Features Common to Primboos and Primboos Fit
2 functions in 1 bottle.
PRIMER Removes oil and debris to prepare the foundation before application.

BOOSTER Supports glue adhesion and extension retention.

Both products use Clean Water in their formulations.

* Dissolution time and retention may vary depending on conditions of use, application technique, and other factors.
For professional use. Read the instructions and precautions before use.

RAFI LASH LIFT

Salon-Exclusive Product
Lash Lift eel

Create the Curl You Envision

Choose your curl, texture, and handling characteristics.

• Curl design that considers both tip alignment and feel.

• Repairing and moisturizing ingredients help address dryness and roughness.

• Choose between 2 application textures to suit the treatment.

EEL combines 3 reducing agents with repairing and moisturizing ingredients. This lash lift formula is designed with both curl formation and the texture of the lash tips in mind.

Individual Product Lineup / 30 g each / Made in Japan

Solution 1 Smooth ¥2,900 (excl. tax)

Solution 1 Moist ¥2,900 (excl. tax)

Solution 2 for Both Types ¥2,900 (excl. tax)

POINT 01
2 textures to suit

Solution 1 is available in 2 types: Smooth and Moist. Select the right formula for each treatment based on spreadability and staying power.

Smooth

A soft texture that spreads smoothly
Easy to apply over a wide area with smooth handling. Spreads gently and is recommended for treatments where a natural finish is desired.

Moist

A higher-viscosity texture that stays in place and applies easily
Easy to apply precisely where needed, with reduced dripping. Recommended for treatments that also address dryness and roughness at the lash tips.

Processing Time Guide
Solution 1: approx. 7-9 min. / Solution 2: approx. 9 min.

Adjust according to lash condition, treatment history, and room temperature. Always use Solution 1 and Solution 2 together, and read the instructions and precautions. Salon-exclusive product. Must be used by a licensed cosmetologist.
MEA: monoethanolamine salt. Pellicer®: sodium dilauroyl glutamate lysine. The diagram is a conceptual representation of the ingredient combination and does not indicate formulation ratios or reducing strength.

POINT 02 | TRIPLE REDUCING AGENTS

A combination of three agents for well-defined curls with a natural finish.

Cysteamine
Works efficiently to form curls
Efficiently reduces the lash bonds involved in curl formation.

+

Thioglycerin
Relatively gradual change in action
Curl-forming performance remains relatively stable despite differences in lash damage.

+

MEA Thioglycolate
A thiol-based ingredient that supports shaping
Acts on the S-S bonds in the lashes, making them more receptive to reshaping.

*These are general characteristics of reducing agents. Their action varies depending on pH, concentration, lash type, and other factors. These are not the results of a comparative test of Eel alone.

POINT 03 | CARE FORMULA WITH BOTANICAL INGREDIENTS

Designed with dryness and roughness in mind, leaving lash tips supple and beautifully aligned.

Moisture, strength, resilience, and manageability. Repairing and moisturizing ingredients selected with the finished texture in mind.

Pellicer®

Helps prevent dryness and leaves lashes smooth to the touch.
Included as a moisturizing ingredient. It supplies lashes with moisture, helps prevent dryness, and supports a smooth, conditioned feel.

PPT & Keratin

Repairs lashes and supports strength and resilience.
Solution 1 contains two types of wool-derived keratin.*1 Solution 2 contains hydrolyzed cashmere goat keratin. These protein-derived ingredients help repair the lashes.

CMC

Helps water and oil blend for improved manageability.
Helps water and oil blend, supporting a smooth, cohesive finish. Ideal for treatments where the texture must be carefully refined through to the lash tips.

11 Amino Acids*2

Replenishes moisture and helps prevent dryness.
Contains arginine, glycine, serine, and other amino acids. Together with PCA, PCA-Na, and sodium lactate, they help keep lashes moisturized.

Six botanical extracts in one formula.

Solution 1 contains six botanical extracts: German chamomile flower, Roman chamomile flower, calendula flower, cornflower, St. John's wort flower/leaf/stem, and linden flower extracts.

Solution 2: Repair and moisture for the finishing texture.

Cashmere Goat-Derived Keratin
A protein-derived repairing ingredient that helps repair lashes and supports a supple texture with strength and resilience.

11 Amino Acids + Moisturizing Ingredients
Contains PCA, PCA-Na, sodium lactate, and other ingredients. Replenishes lash moisture and helps address dryness. Also contains tea leaf extract.

*1 Hydrolyzed Keratin (Wool), Hydroxypropyltrimonium Hydrolyzed Keratin (Wool). *2 Arginine, aspartic acid, glycine, alanine, serine, valine, proline, threonine, isoleucine, histidine, and phenylalanine. Plant imagery represents the source materials used for the formulated extracts. Results vary depending on lash type, treatment history, and treatment conditions. Illustrations do not represent the actual viscosity or texture.

EYE LASH WATER SERIES

POINT 1. Exceptional penetration power (35 times that of purified water)
2. Safe enough to drink
3. Jointly developed with more than 20 universities and research institutions
4. Contains no antimicrobial agents, humectants, or preservatives
5. Extremely safe because it returns to ordinary water upon contact with organic matter

EYELASH CLEAN WATER

EYELASH CLEAN WATER

Registered as a cosmetic product

A water treatment that cleanses and hydrates lashes before treatment, preparing them for even product application.

100 ml ¥1,800 (excl. tax)

Main ingredient: Ultrapure water
Additives: None
Shelf life: 3 years unopened / 1 year after opening
Country of manufacture: Japan

200 ml ¥2,900 (excl. tax)

Main ingredient: Ultrapure water
Additives: None
Shelf life: 3 years unopened / 1 year after opening
Country of manufacture: Japan

Four Features of Clean Water

Cleansing Power

Cleanses away residue from natural lashes and extensions, leaving lashes clean and ready for treatment.

Time-Saving

Replenishes lash moisture and prepares lashes for treatment. Helps shorten application time for extensions and lash lifts.

Moisture & Lash-Alignment Care

Replenishes moisture in dry lashes, corrects kinks and irregular alignment, and leaves them easier to work with.

Pre-Swelling

Opens the cuticle and pre-swells the lashes, preparing them to absorb treatment solutions more readily.

EYELASH CARE WATER

EYELASH CARE WATER

Registered as a cosmetic product

A water treatment that replenishes moisture in dryness-prone lashes. For moisturizing and care after treatment.

100 ml ¥1,800 (excl. tax)

Main ingredient: Ultrapure water
Additives: None
Shelf life: 3 years unopened / 1 year after opening
Country of manufacture: Japan

200 ml ¥2,900 (excl. tax)

Main ingredient: Ultrapure water
Additives: None
Shelf life: 3 years unopened / 1 year after opening
Country of manufacture: Japan

Four Features of Care Water

Hydration

The high-penetration water formula reaches deep into the lashes, replenishing insufficient moisture and delivering hydration.

Moisture Lock

High ionic activity and penetration replenish moisture and keep lashes hydrated for longer.

Skin Care

A skin treatment that helps calm inflammation and promote cell renewal.

Cuticle Care

Tightens the cuticle to lock moisture inside the lashes. Helps prolong the effects of lash lifts and treatment solutions.

EYELASH WATER Treatment Procedure

Eyelash Extensions

Pre-Treatment: Prepare the natural lashes for application
1. Clean Water
2. Care Water

Cleanses natural lashes and supports hydration, repair, and pre-swelling.

Conditions the cuticle and cares for damaged lashes.

Removes residue for clean lashes.
Conditions lashes to make application easier.

Pre-Application Preparation
3. Choose one

Non Stress Remove Seminar

Smooth Removal, Aiming for Full Removal in 10 Minutes

For professionals struggling with removal
Skin stress, lost time, accidentally catching adjacent extensions...

Technique-based solutions for your removal concerns.

Recommended For Those Who Want To:

- Learn safe, fast removal
- Reduce stress on clients' skin
- Reduce the workload on staff
- Shorten treatment time and improve efficiency
- Learn how to accommodate allergy concerns

Features of Non-Stress Removal

A technique for smooth full or partial removal while minimizing contact with adjacent extensions and the skin.
Its simple procedure can be performed with one hand,
making it useful for training beginners and coaching staff.

Partial Removal Matters as Much as Full Removal

<Adjusting the Number of Extensions>
Remove only where needed to adjust the number of extensions. Helps minimize the amount of product dispersed.

<Protecting the Cuticle>
Forcible removal can damage the lash surface. Gently and precisely remove only the necessary extensions.

Why Professionals Choose Non-Stress Removal

- Less likely to catch adjacent extensions
- Helps prevent dripping and contact with the skin
- Improves efficiency and reduces product waste
- Designed to minimize stress on the skin and lash cuticles
- Also supports comfortable tape work

Online (Instagram only) ¥10,000 (excl. tax)
In person (textbook and diploma included) ¥15,000 (excl. tax)
Theory: 2 hours / Practical training: 2 hours

*In-person training is generally held at our salon. On-site training is also available if travel expenses are covered.

SEMINAR

Refine Your Technique and Build Confidence Two Seminars

From developing practical, salon-ready techniques to overcoming areas of difficulty.
Our salon offers two seminars to suit your objectives.

■ Skill Development Course (Individual Instruction) | Diploma (Certificate of Completion)

Tuition: ¥30,000 per person / 3 hours (excl. tax)

A one-on-one intensive course focused on real-world challenges and areas of difficulty. The balance of theory and technical instruction is tailored to your objectives. The course addresses salon-work needs such as reviewing techniques and building knowledge.

Learn techniques and knowledge you can immediately apply in the salon through three hours of individual instruction.

<Challenges This Course Can Address>

Following a preliminary consultation, we will propose a plan tailored to what you want to learn.

• Improving consistency in lower-lash treatments
• Mastering rapid extension application

• Improving extension retention

• Reviewing the fundamentals and learning advanced applications

■ Group Course (Limited to 4–10 Participants) | Diploma (Certificate of Completion)

Tuition: ¥60,000 per person / 8 hours total (excl. tax) • Partner practice included

An intensive course combining theory, technical practice, and model work to deepen understanding and practical ability. Designed for beginners to intermediate-level professionals, covering fundamentals through advanced techniques.

<Main Content>

[Theory: 2 Hours] Tape work, pre-treatment, application theory, and product knowledge
[Technical Training: 3 Hours] Instructor-led fundamental technique training designed to minimize client discomfort and stress
[Model Practice: 3 Hours] Participants practice on one another and work with models to develop advanced practical skills.

The course can also be taken again as a refresher or used as a step toward learning another technique.

RAFI SCHOOL

■ STANDARD COURSE
Single / Flat
20 hours (approx. 4 days): ¥180,000 (excluding tax)
This course is designed for those who want to learn the optional services offered by eyelash extension salons, along with fundamental techniques.

■ **PROFESSIONAL COURSE**

Single / Flat / Volume
30 hours (approx. 6 days): ¥200,000 (excluding tax)
For those who want comprehensive training in theory as well as both upper- and lower-lash application. The course covers detailed application methods for single and flat lashes, plus treatment lessons that can be added to your salon menu.

■ **START-UP MASTER COURSE**

Single / Flat / Volume / Lash Lift
40 hours (approx. 8 days): ¥300,000 (excluding tax)
This course covers all the knowledge, theory, and techniques required to open a salon. It also teaches a wide range of practical topics, including client acquisition and strategies for building repeat business, making it ideal for those who are serious about opening their own salon.

TRAINING KIT

Diploma (Certificate of Completion) Issued

VOLUME LASHES **6 HOURS**	• How to create and place fans
LOWER LASHES **2 HOURS**	• How to pick up and place extensions; tape work
TREATMENT **2 HOURS**	• 3-step treatment procedure

■ START-UP MASTER COURSE DETAILS

ADDITIONAL 10 HOURS

This comprehensive course covers all content from both the Standard and Professional Courses, providing a systematic program of practical techniques and theory from fundamentals through advanced applications.

LASH LIFT **8 HOURS**	• Lash lift solutions and rod selection • Basic methods and techniques
SALON START-UP THEORY **2 HOURS**	• Practical, specific instruction in the fundamental knowledge and preparation process required to open a salon

The Story of RAFI
Radiance That Draws People In

REFINING QUALITY THROUGH HANDS-ON SALON EXPERIENCE.

RAFI is a brand that applies hands-on treatment experience and customer feedback to product development. Founders Hideaki Oyama and Akiko Oyama draw on the knowledge and skills they developed as beauty professionals and educators in their pursuit of quality, retention, and comfort. Through both product development and technical instruction, they support beautiful salon results.

REFINING QUALITY THROUGH USER FEEDBACK.

We carefully select materials and conduct ongoing research, with close attention to the user experience from application through aftercare. By applying customer feedback to product development, we deliver products that bring out each client's natural beauty.

BRINGING IDEAS NURTURED IN THE SALON TO RAFI PRODUCT DEVELOPMENT.

Symbol Mark
ORIGINS OF THE LOGO

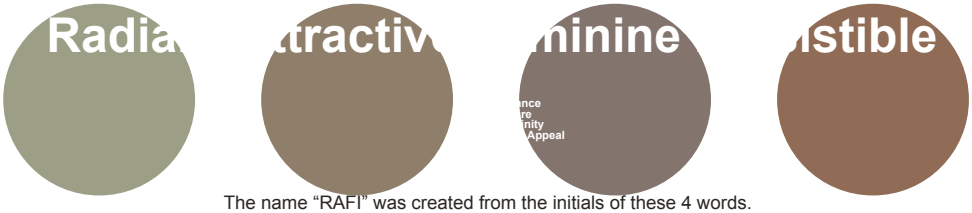
THE RADIANCE OF AN UNCUT GEMSTONE
TOWARD A SIMPLE FORM
OUR CUSTOMERS AND RAFI

UNCUT GEMSTONE = COMMITMENT TO QUALITY
TWO FORMS = A BOND OF TRUST

The uncut gemstone represents our commitment to refining materials and techniques to deliver products of true quality, while pursuing beautiful results and comfort.

The two forms represent our customers and RAFI. They symbolize the bond through which we stay close to our customers, support salon services with products and techniques, and cultivate beauty together.

4 MEANINGS EMBODIED IN RAFI



The name “RAFI” was created from the initials of these 4 words.

RAFI SINCE 2021 COMPANY PROFILE

SUPPORTING BEAUTIFUL EYES THROUGH PRODUCTS AND TECHNIQUE.

Through the RAFI brand, EINER Inc.

is a beauty company dedicated to product development and technical education.
Guided by feedback from product users, we support beautiful results and the everyday work of salons.

OUR BUSINESS
SUPPORTING SALONS THROUGH 3 BUSINESS AREAS.

01 PRODUCT DEVELOPMENT, MANUFACTURING & SALES

We offer eyelash extension products that support professional salon work, including extension fibers, glue, remover, and treatment products made with ultrapure water.

02 TECHNICAL EDUCATION & SCHOOL

Through seminars and educational programs held across Japan, we support lash artists in developing their technical skills and help train the next generation of professionals.

03 RESEARCH & DEVELOPMENT OF BEAUTY PRODUCTS

We pursue quality, retention, and ease of use, incorporating feedback from working professionals into our products. We develop products with consideration for both natural lashes and the environment.

OUR VISION

DELIVERING PRODUCTS OF TRUE QUALITY AND SHINING TOGETHER WITH OUR CUSTOMERS.

We continuously refine our products and techniques
to become a trusted brand.

PEOPLE BEHIND RAFI

TRANSFORMING HANDS-ON EXPERIENCE INTO BETTER PRODUCTS.

REPRESENTATIVE DIRECTOR HIDEAKI OYAMA

As a hairstylist, he won numerous awards, including first place in haircutting competitions. He has also worked backstage at events such as Asia Beauty Expo and served as a haircutting instructor. His interest in the chemical products used in salons led him to deepen his knowledge and earn a range of qualifications. Today, he applies his technical expertise, knowledge, and hands-on experience to developing better products.
